

BIG K. P. PICNIC ON JULY FOURTH

To be Held at Lakeside Park
by Victoria Lodge No.
84—K. of P.

GOOD TIME AND BIG DAY FOR ALL

At the regular meeting of Victoria Lodge No. 84, K. of P., at the Castle Hall last evening, it was unanimously decided to hold a big picnic at Lakeside Park, this city, on the Fourth of July. It has been several years since a picnic of this character and magnitude has been held, and the public generally can rest assured of a good time and a big day, with plenty of good things to eat and drink, amusements and everything else necessary to a most enjoyable occasion. The fact that Victoria Lodge is back of the event is sufficient evidence of all enjoying themselves, with not a dull moment. Further details will be furnished later.

The following officers were elected for the semi annual term beginning July 3rd.

H. B. Withers, C. C.
P. P. Price, V. C.
F. B. Arnold, Prelate
A. G. Spillman, M. at A.
Kirby O'Bannon, M. of W.
Kress Sisk, I. G.
Marion Sisk, O. G.

One page was initiated in the memorial Rank of Esquire. The lodge is one of the best in the Grand Domain of Kentucky, and is only getting its second wind. Watch its smoke. It's going some.

SOME CATFISH BELIEVE ME

The largest catfish ever caught out of the Cumberland river was brought to Paducah about noon today by Tom Hayes, a fisherman, and sold to the E. D. Iverlett fish market. The monster weighed one hundred pounds exactly and was caught on a trot line which was baited with the head of a hog. Both jawbones of the hog were found in the fish's stomach, the meat of the head having been digested.

The fish was caught near Dy-cusburg, which is about twenty-five miles above the mouth of the Cumberland.—Paducah Sun.

Getting Down to Cases.
"I would go to the ends of the earth for you."

"Let us have some plain talk," said the girl. "Am I to understand that you will take me around the world on the wedding trip?"—Philadelphia Bulletin.

THOSE THAT HAVE—GET BY WESTON

A DELIGHTFUL TRIP THAT RESTS

Both Mind and Body—Cheaper Than Staying at Home—You are Invited To Go

SEVEN DAYS TRAVEL AND PLEASURE FOR \$20.00

For real rest and recreation there is nothing that quite equals a boat trip on the broad Ohio river from Evansville, Ind., to Cincinnati, O., on one of the L. & C. Company's palatial steamers.

The cool pure air, the invigorating river breeze, the inviting parlors and state rooms, the unexcelled edibles, all combine to make life aboard these floating palaces a source of continual enjoyment and unalloyed pleasure. If you wish to know the joy and comfort of one of these trips we invite you to go with the Bee's party on June 19. Read carefully the following description of the trip:

The Earlington Bee will on Monday, June 19, take the six winning contestants and a party of their friends, about 50 in number, to Evansville, Louisville and Cincinnati for a seven days outing. The trip will be as follows: Leave Earlington in a special coach on train 92 at 6:20 Monday morning June 19th., leave Evansville on Steamer Tariscon at 10:00 Am. for Louisville, reach Louisville Wednesday Am., lay over in Louisville until 5 Pm. and leave for Cincinnati on Steamer City of Cincinnati, arrive Cincinnati about 7:30 Thursday Am., lay over in Cincinnati Thursday, Thursday night and Friday until 5 Pm., leave for Louisville on Steamer City of Louisville, arrive in Louisville Saturday Am. and lay over in Louisville until 5 Pm., leave Louisville on Steamer Tariscon and arrive in Evansville Sunday night in time to have special coach put on train 93 for Earlington.

This arrangement gives the party two days and a night in Cincinnati and one day in Louisville going and returning. The party will be met in Cincinnati by a representative of the American Press Association and will visit the Zoological Gardens, Art Gallery and other places of interest, and those who wish may have an opportunity to witness a Big League game.

COST OF TRIP

The cost of this trip including railroad and steamboat transportation from Earlington to Cincinnati and return, meals and berth, transferring of baggage at Evansville, Louisville

and Cincinnati and all expenses except the lay-over in Cincinnati will be \$20.00. This is the longest and best trip we have ever undertaken for the money and covers more interesting territory. The Steamers Tariscon and City of Cincinnati are both large and roomy with exceptionally good fare and nice, clean berths. There is an excellent string band on both steamers and plenty room for dancing, bridge parties and other amusements.

The steamers carry a nice line of soft drinks, fruits and confectioneries for the accommodation of passengers. There are about 50 who have signed up for the trip and we are advised by the steamboat people there will be state rooms sufficient for 200, we would like very much to have you make one of this party and guarantee you a splendid good time. The young girls will be looked after by Mrs. Fawcett, who is an excellent chaperone and has had quite a good deal of experience along this line. If you wish to make this trip with us send a check for \$5.00 on or before June 10th and a place will be reserved for you. The remaining \$15.00 to be paid not later than June 17th, as the party leave early Monday morning and there will be no time to make arrangements. If you care to send a check for the full amount a receipt and ticket good for the round trip will be sent you by return mail. To parties who can get railroad pass to Evansville and return, the cost of trip will be \$17.50. We must have a deposit of \$5.00 by June 10th in order to make suitable arrangements for transportation. Please let us hear from you if interested and oblige.

Yours truly:

HIGH SCHOOL JUNIOR CONTEST

At School Auditorium Friday
Night was Successful
Affair

The High School Junior Medal contest held at the school Auditorium on last Friday night was a decided success and all of the contestants acquitted themselves with honor. The Judge had some trouble in deciding to whom the medals should be given but finally decided to give Miss Flora Lipscomb the medal for the girls, and Mr. Paul Jones the medal for the boys. There was a good crowd out to hear the boys and girls orate considering the extreme warm weather and the gate receipts, while not as much as expected were fairly satisfactory.

THE REAL CULPRIT

(L-r-f-e)

The Crown Prince had been so busy that he hadn't had time to get together with his father and have a confidential chat. But one evening when there was a lull in the 808-centimeter guns, they managed to get a few moments off. The Crown Prince turned to his father and said: "Dad, there is something I have been wanting to ask you for a long time. Is Cousin George really responsible for this scrape?"

"No, my son."
"Well, did Cousin Nick have anything to do with it?"
"Not at all."
"Possibly you did?"
"No, sir."

"Then would you mind telling me who it was?"

The anointed one was silent for a moment. Then he turned to his son and said:
"I'll tell you how it happened. About two or three years ago there was a wild man came over here from the United States, one of those rip-roaring rough riders that you read about in dime novels, but he certainly did have about him a plausible air. I took him out and showed him our fleet. Then I showed him the army, and after he had looked them over, he said to me, 'Bill, you could lick the world.' And I was damn fool enough to believe him."

HAIL STORM DOES MUCH DAMAGE

To Crops in South End of
County, High Wind Blows
Roof off U. M. C. A. in
Madisonville

A heavy hail and wind storm last night did quite a lot of damage to the growing crops in this county south of Nebo and at other places. In Madisonville the wind blew a portion of the roof off the Y. M. C. A. building and blew a large tree down near the court house, blew the roof off of Jim Adcock's house two miles west of Madisonville and did considerable damage to telephone and telegraph wires in the county. The hail and wind were severe at this place for a short time but no damage of any kind is reported.

REV. DUBOSE

Delivers a Splendid Address
at the M. E. Church, South
Sunday Night to a Very
Large Audience

Rev. DuBose, who is book editor of the Methodist Publishing House, in Nashville, delivered a splendid address to a large and appreciative audience at the M. E. Church, South, Sunday night. It was considered by many to be the best baccalaureate sermon ever delivered in this city and although the night was exceedingly warm and the house crowded, there was no evidence of any unrest or weariness on the part of the audience during the hour and a half address. It was so interesting that one forgot the flight of time, forgot the thermometer was hovering around 90, in fact forgot everything except the fact that he was listening to one of the most scholarly addresses ever delivered in this city.

Get the Farmer Trade

Why is it that there is so much wealth among the farmers and yet so little of it finds its way into this town? There is a reason, and a potent one. If we ask our farmer friends they perhaps will tell us. But we should have brains enough to solve this problem ourselves. We shouldn't adopt the kinder-garten method of asking some one who knows more than we do. It is up to the commercial interests of this town. We can not justly blame the farmer, because if we were in his place we would undoubtedly be doing just as he is doing. It is his money and he has a right to do as he pleases with it, and it is a safe bet that he will exercise that right to the limit whenever he spends a dollar.

It will not be difficult to keep the farmer trade in this town if our business men go after it in the right way. The farmer must be convinced by cold facts that it is to his interest to do all of his trading in this town, but it will take something beside empty words to do it. He is a man of facts, and nothing but facts will have any weight with him. Hence, we repeat, it is our duty to get together and remedy the defects in our commercial system that now exists and make conditions such that the farmer will turn to this town instinctively as the most logical and profitable place to trade.

Farmers of East Christian county are using goats extensively for the purpose of ridding their farms of sassafras bushes, one of the banes of farming. Another tablet was full of information on grammar and composition, even to forms for letters of various kinds. He was also prepared on physiology, history and other studies. Much of our future success in this country depends upon our ability to keep our young men on the farms and away from the cities. Statistics show that the farms are gradually becoming depopulated and the cities are being overcrowded, with from two to five men waiting for every job. If our young men would stick to the farms, and improve and develop the uncultivated acres, it would be only a question of time when the wealth of this country would be doubled and trebled. Bright lights and white ways appeal to the young eye, but they do not feed empty stomachs. The farm is a good place to be and a far better place to stay.

When my daughter had whooping cough she coughed so hard at one time that she had hemorrhage of the lungs. I was terribly alarmed about her condition. Seeing Chamberlain's Cough Remedy so highly recommended, I got her a and it relieved the cough at once. Before she had finished two bottles of this remedy she was entirely well," writes Mrs. S. F. CLEAN UP AND PAINT UP A CONTINUOUS CAMPAIGN

Suggestions For Making Our Town a Better Home
Town—Chairman of National Bureau
Says Start Now and Keep It
Up the Year Round.

SINCE Hercules diverted the river to renovate the Augean stables "Clean Up" has had its place in the world's vernacular. With spring the desire to refurbish comes subconsciously into the hearts of men and women, and communities. But without direction and sustained effort the expression of that desire, in the form of the ordinary "Clean Up Day" or "Week," is apt to result in a superficial sally against filth.

Years ago Allen W. Clark, a St. Louis editor, made up his mind that this natural "Clean Up" instinct could be turned to account, that it could be developed into a real campaign working toward definite ideals and accomplishing permanent results. And so, in May, 1912, Mr. Clark founded the National "Clean Up and Paint Up" Campaign Bureau, with headquarters in St. Louis. He hoped that a thorough-going movement, national in its scope and practical in its principles, might take the place of the "annual bath" idea as expressed in the old-time "clean up day" or "week."

A National Civic Movement.
For four years the scope of the National Bureau's service has rapidly extended until this year it is co-operating with more than 6,000 local communities in the organization and direction of real "Clean Up and Paint Up" campaigns, not "days" or "weeks." Continuous campaigns for homes and hometowns beautiful, sanitary and safe, conducted by permanent committees, and involving the co-operation of city and town officials, club women, commercial organizations, the children, fire prevention interests, all business men and property owners, is the goal aimed at by all of the National Bureau's propaganda.

Mr. Clark declares that the bane of any community is the citizen who lacks even a semblance of interest in the community, and that, strange as it may seem in a democracy, absence of this interest seems to be pretty generally prevalent in the average American community. Such a citizen would have "The Town" or "The City," whatever those names may signify when the body of citizens is eliminated, keep the streets and alleys clean, preserve the public and individual health, eliminate nuisances, make everything in town spick and span and satisfactory—while the citizen sits back and looks on.

The real "Clean Up and Paint Up" campaign, organized on the plans of the National Bureau, gives everyone something definite to do to help make their hometown beautiful, sanitary and safe. And the campaign's educational influence should work steadily the year 'round and year after year, automatically eliminating many nuisances caused formerly by carelessness, or thoughtlessness of property owners and tenants.

A Suggestion For Our Town.
The methods for accomplishing all of

this suggested by the National Bureau are well illustrated by a brief description of the local campaign organization in St. Louis. With various adaptations this St. Louis plan has been found practicable in any city, no matter how large or small.

The entire campaign is under the direction of the Continuous St. Louis "Clean Up and Paint Up" Campaign Committee, of which Charles M. Talbert, director of streets and sewers, is chairman. On this committee are various civic and business leaders, including the leading club women of the city.

Each member of the general committee is chairman of a subcommittee responsible for some definite department of the campaign's activity. The Director of Streets and Sewers is chairman of the committee on "Refuse Clean-up," the chief of the Fire Department is chairman of the committee on fire prevention and the head of the Health Department is chairman of the committee on housing reform.

A partial list of these campaign committees, with notation of some of the objects of each, follows:

Committees For the Work.

Street Department—Household waste, permanent plan, improvement of districts which will be center of interest in coming National Democratic Convention, smooth paving, signs on public buildings, rubbish boxes.

Landscape Gardening—Ordinances, campaign among property owners, yard planting campaign among children.

Fire Prevention—Clean up rubbish, roofs, condemn shacks that are fire risks.

Housing—Insanitary yards, privies, tenements, lodging houses, garbage receptacles.

Vacant Lots—Reported by Boy Scouts, flower and vegetable gardens by school children and Real Estate Exchange, weed cutting, bird boxes.

Flower Boxes—In congested districts, downtown and opposite Union Station.

Unightly Advertising—Posters on buildings, "For Rent" signs, ordinances.

Appearances of Buildings—Vacant buildings, painting, lighting of prominent corners.

Street Drinking Fountains—General and on downtown corners.

Smoke Abatement.

Publicity—Billboards, posters, street cars, circulars for children, buttons, newspapers, moving pictures.

Speakers—On general subject, also on special phases of campaign.

District Organization—Report nuisances, see property owners and urge to clean up and paint up and plant trees.

School Children—Distribution of printed matter, school gardens.

Police—Report nuisances, distribute directions for rubbish collections, request co-operation of residents.

The chairman of these various committees should be the city or town officials or civic leaders who are most interested in the work to be done by the committee.

By THE EDITOR.

MONKEYS imitate. Sheep follow the leader. And most of us—men, women and children alike—are prone to do the same.

Imitation is bad for the monkey and bad for the sheep if the example followed is bad. But it is good for both if the leadership is safe. Just so with us mortals. Inspired by environment, we can think great thoughts and do things worth while. Depressed by environment, we can sink into the depths of despondency.

But, thanks to human powers of initiative, we can shape our environment. We can make it what we will, if we will. And so intimately are our own interests linked with those of our neighbors that when we improve our own surroundings, be it ever so little, we improve theirs.

Right there the monkey in man asserts itself.

Today your neighbor fixes up his yard, removes rubbish, plants flowers, trims his hedge, paints his house.

Tomorrow your own place looks sick. You never noticed before that a little cleaning up and painting up would accomplish so much in making home life happy and healthy through the long outdoor months of summer. So you get busy with the pruning shears, the rake, lawn mower and garden hose. You start a painter working on your house and outbuildings. Forthwith you, your wife and the kiddies begin to realize more fully the "joy of living" in the good old summer time.

Day after tomorrow other neighbors will begin to perk up their premises and their persons. Then others will follow their example, and so the spirit of spring's regeneration will spread from house to house and block to block.

But let's not wait for this creeping regeneration of our town. Let's organize immediately a continuous "Clean Up and Paint Up" campaign and make the refurbishing a thorough community movement. Our official community can help, and so can each civic organization, and the business men, and the women, and the children.

Let's make "Clean Up and Paint Up and Keep It Up" our slogan and live up to it.

CLEAN COMMUNITIES HEALTHY

Filth in itself cannot generate disease, but in the long run, barring unusual exceptions, low death rates and long life always come with records of clean communities.

The "Clean Up and Paint Up" campaign is, after all, a housekeeping job, and for that reason every housekeeper should co-operate with the town officials in making the town spotless. Nothing pleases one more than to have a visitor say what a beautiful town you live in. Why not make your town the cleanest in America? It's easily done. Have harmony reign and all work together and you will be surprised at the result. Now, let us all pull together for a spotless town!

WHAT PAINT WILL DO.

Ask any real estate man what percentage of value is added to a house by a fresh coat of paint and you will be surprised at the size of the figure he will give you. Too many householders have the habit of putting off painting until a house fairly screams for it.

Good paint applied at regular intervals, not too far apart, is the true economy in that it not only actually raises the value of the house by improved appearance, but through preservative ingredients prevents and arrests decay. The man who lets his house become an eyesore in an otherwise well kept locality should be taxed for the heavy damage he is doing to that community, says the Real Estate Journal.

What are we doing for this town? What are we doing to push it along, to make it something more than just a dot on the map? Ask yourself the question first, and then ask others, and keep on asking until we locate the cause of our backwardness and take steps to remedy the defects. This is not a drifting age, and the town that is content to just drift along will soon learn that there is no place left in which to even drift. It is not a lack of brains, because our people are blessed with an abundance. It may be, however, that we lack the initiative that is necessary to keep pace with the more thriving and prosperous communities of the country. If so, we should at once correct our fault and move forward. We should grasp every opportunity for improvement and expansion that presents itself, and when there are none in sight we should go out and hunt them. Drifting will accomplish nothing but to bury us beneath the enthusiasm and prosperity of our neighbors. Now who wants to drift? Not you, we hope.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Best Thing for a Bilious Attack

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Bally, Editor Carolina News, Chapin, S. C. Avoid Spring Colds

In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery Tested and tried for over 40 years.
